

YJ. Biotech Experts in Stem Cell Exosomes and Regenerative Medicine Solutions

YJ Biotech, founded in 2020, is a leader in cellular therapy and biopharmaceutical technology. We specialize in sustainable, carbon-neutral cell preparation solutions.

Our focus on R&D, cell processing, and manufacturing positions us at the forefront of the industry.

Clinic in front

Factory Behind

YJ Biotech: A Pioneer in Regenerative Medicine

1

2020

YJ Biotech Established:
Founded with a vision to transform regenerative medicine using stem cell exosomes.

2

2024

Certifications Achieved:
Earned ISO 17025 and MOHW GTP certifications, underscoring our commitment to quality and regulatory compliance.

3

2025

Global Expansion:
Launched overseas turnkey services, enhancing expertise and extending reach to Shanghai, Hanoi, and beyond.

**Initial Public Offering
in Taiwan**

Four Key Strengths of YJ Biotech

Expert Technical Team

A team of highly skilled scientists and engineers with deep expertise in regenerative medicine and cell therapy.

Pharmaceutical-Grade Production

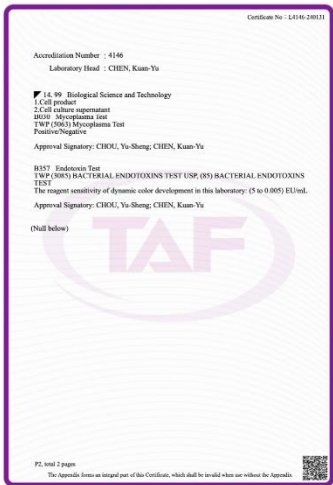

Strict manufacturing standards and quality control processes, ensuring the highest level of product purity and efficacy.

Extensive Industry Experience

Years of accumulated knowledge and experience in developing and manufacturing innovative regenerative medicine solutions.

Pharmacopeia-Level Quality Control

Rigorous quality assurance procedures, guaranteeing the safety, efficacy, and consistency of our products.

Application Number: 2024-10081

Submitted By: YJ. Biotechnology Co.,Ltd.

Manufactured By: YJ. Biotechnology Co.,Ltd.

Tradename: USCE

If a tradename is not provided on the application, or the tradename field on the application is marked proprietary, the INCI name is published without a tradename or reference to the manufacturer.

If the assigned INCI name is a mixture, the components are listed in the table below in descending order of predominance.

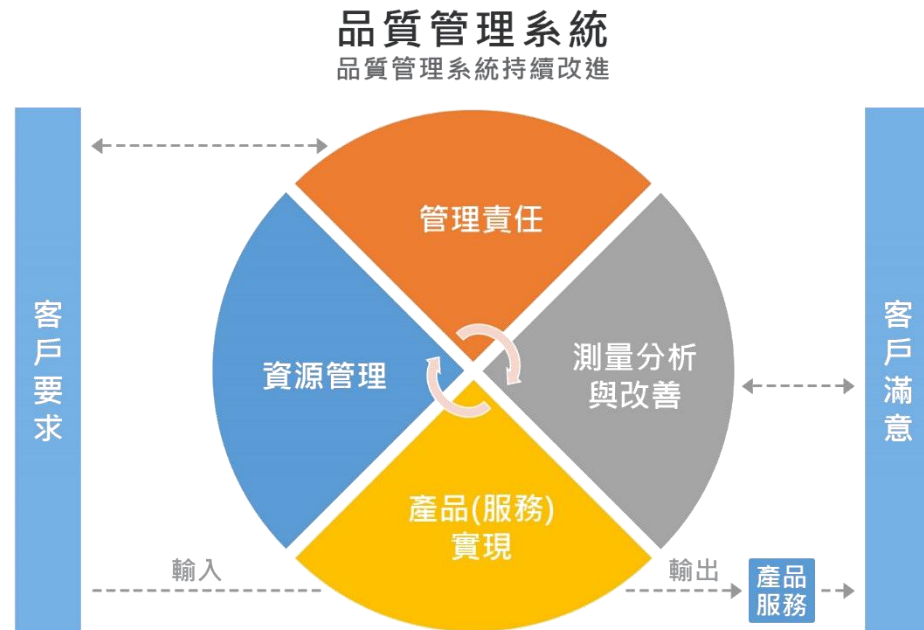

Assigned INCI Name(s):

Mono ID	INCI Name(s)
34122	Human Umbilical Mesenchymal Stem Cell Conditioned Media Extract

品質保證(Quality Assurance, QA)

確保產品安全性與品質：安全且合法在市場銷售
品質管理與監控：控管並降低從原料到成品所有影響品質的風險
符合國內外標準：GMP、ISO 13485、ISO 17025

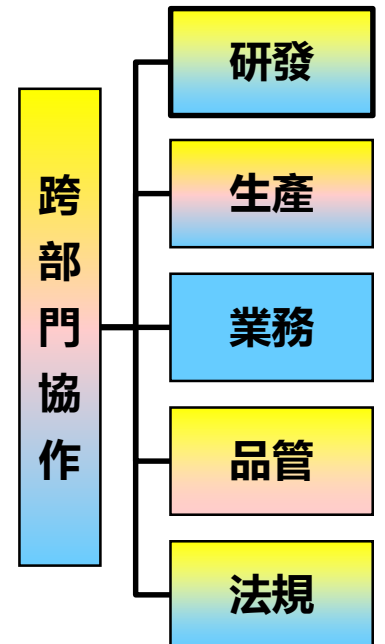

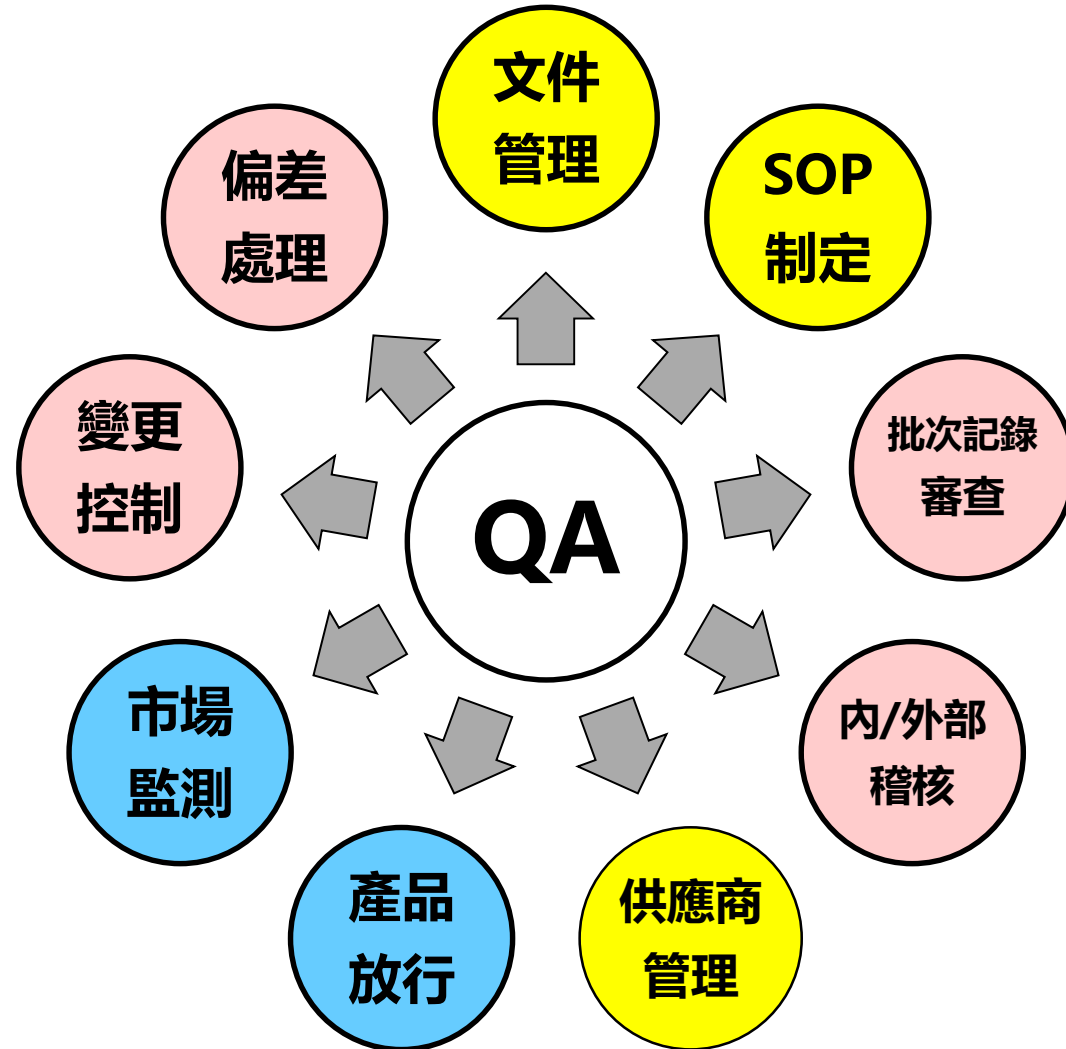

QA日常與實習內容

QC 檢驗方法

無菌檢測 黴漿菌 內毒素
外泌體檢驗

對實習生的期待

細心與高度責任感

- 批次審查與產品放行

跨部門團隊合作與溝通能力

- 稽核、偏差處理、變更控制

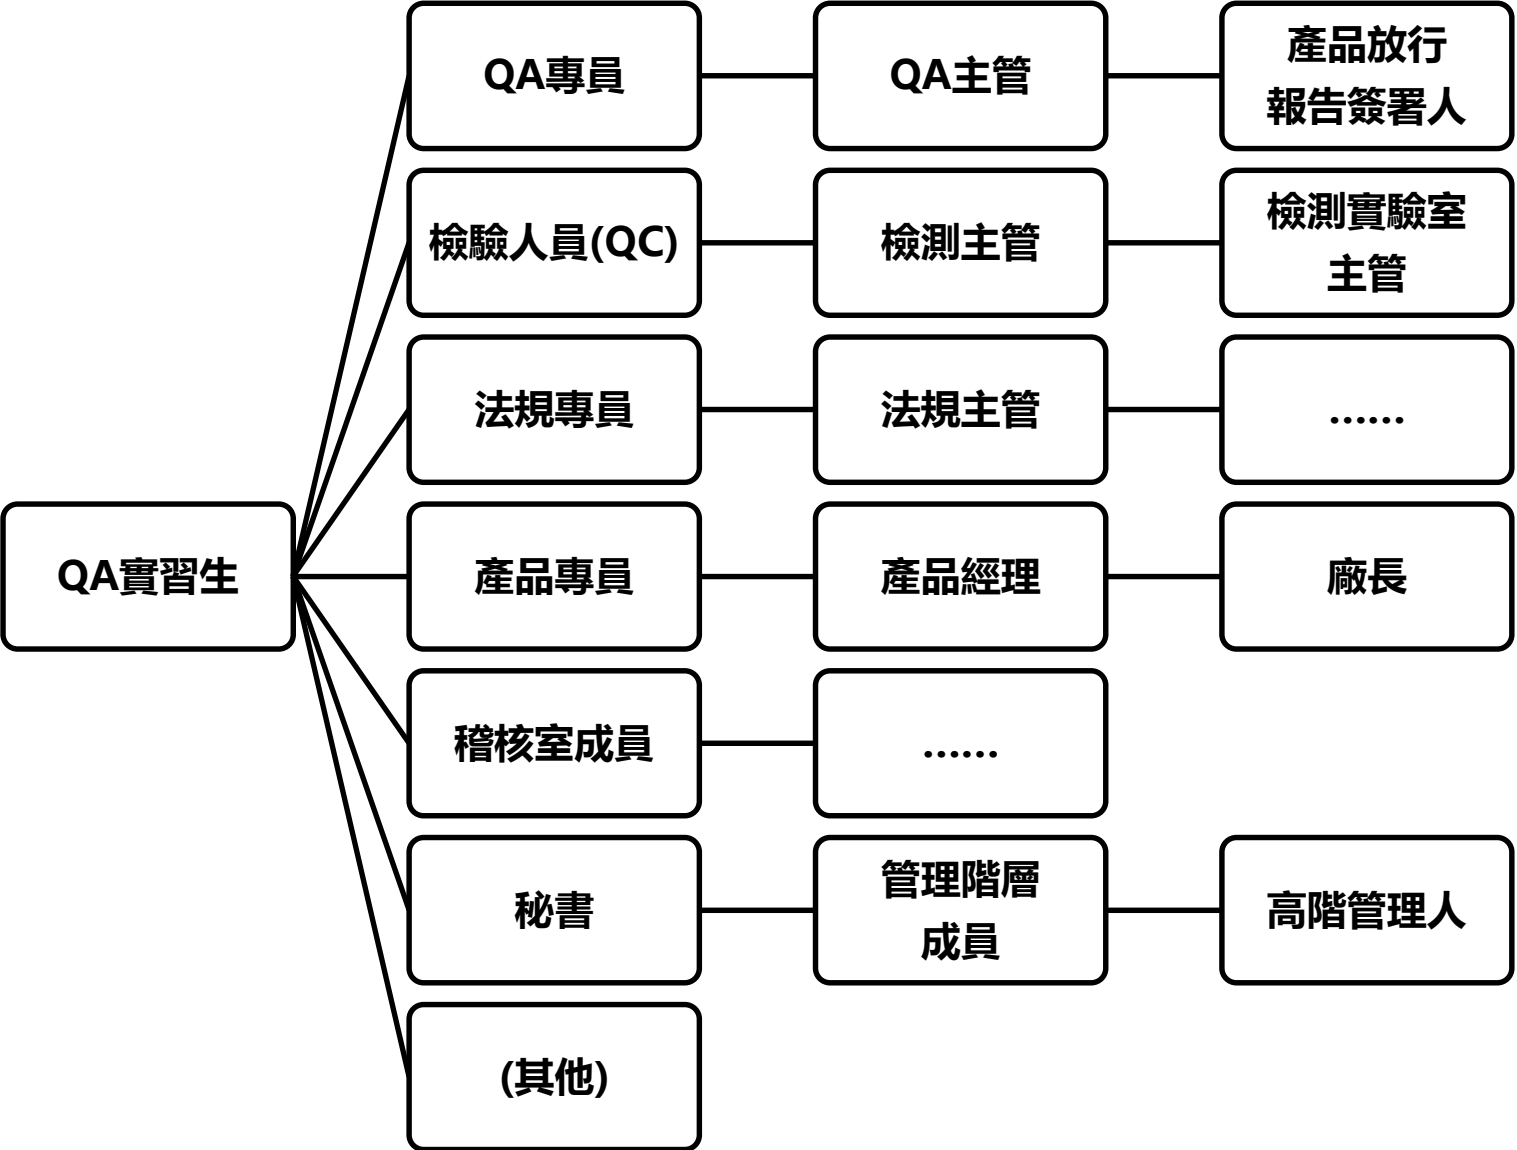

學習與適應能力

- 快速了解法規與流程

文件處理能力

- 撰寫文件、管理文件

未來發展與職涯機會
