RESEARCH DIRECTIONS

- Cares for frail older persons and their family caregivers
- Transitional care for frail older persons, specifically older persons with hip fracture and dementia, and their caregivers
- Qualitative research

TEACHING SUBJECTS

- Healthy Aging and Long Term Care Nursing (I) (II)
- Qualitative research in nursing
- Community health nursing
- Integrated and multidisciplinary approach to elder care
- Advanced qualitative research in nursing

AWARDS

- 2025 2025 World's Top 2% Scientists, Stanford University team
- 2025 1960-2024 World's Top 2% Scientists, Stanford University team
- 2025 Nominations Committee of Alzheimer's Disease International (ADI)
- 2024 2023 World's Top 2% Scientists, Stanford University team
- 2024 1960-2023 World's Top 2% Scientists, Stanford University team
- 2023 2022 World's Top 2% Scientists, Stanford University team
- 2023 1960-2022 World's Top 2% Scientists, Stanford University team
- 2022 2021 World's Top 2% Scientists, Stanford University team
- 2022 1960-2021 World's Top 2% Scientists, Stanford University team

- 2021 2020 World's Top 2% Scientists, Stanford University team
- 2021 1960-2020 World's Top 2% Scientists, Stanford University team
- 2021-2023 Vice Convener, Public Health & Social Medicine Research Areas, MOST
- 2020-2024 Innovative Research Grant, National Health Research Institutes, Taiwan
- 2020 Award for received grant funds six times, National Health Research Institutes, Taiwan
- 2018 Fellow of American Academy of Nursing (FAAN)
- 2017 International Nurse Researcher Hall of Fame, Honor Society of Nursing, Sigma Theta Tau International
- 2015-2018 Innovative Research Grant, National Health Research Institutes, Taiwan
- 2010-2014 Innovative Research Grant, National Health Research Institutes, Taiwan
- 2010 Award for received grant funds four times, National Health Research Institutes, Taiwan
- 2005-2009 Innovative Research Grant, National Health Research Institutes, Taiwan
- 2001-2003 Innovative Research Grant, National Health Research Institutes, Taiwan
- 2001-2023 Talent Subsidy Incentives, Ministry of Science and Technology, Taiwan
- 2000-2001 Research award of National Science Council, Taiwan
- 1999 Candidate for the research excellency award of National Health Research Institutes, Taiwan
- 1997-2000 Career development grant, National Health Research Institutes, Taiwan

RESEARCH

- Precision Care for Older Persons with Hip Fractures(NHRI, 2026-2030)
- A machine learning-enhanced virtual reality intervention to facilitate balance finding for family caregivers of persons living with dementia (NSTC, 2025-2028)
- Developing a Model of Enrichment in Family Caregiving for Individuals Living with Dementia: A Longitudinal Grounded Theory Approach (NSTC, 2024-2027)
- A clinical trial on an Upgraded Smart Cloth Home Care System with Interactive Family Caregiver App for Persons with Dementia (NSTC, 2022-2025)
The Roles of Caregiver Rewards and Mutuality for Persons with Dementia in Family Caregiving: A Correlational Longitudinal Study (NSTC, 2021-

2024)

- Smart care for older persons recovering from hip-fracture surgery (NHRI, 2020-2024)
- Development and preliminary effects of Smart Cloth Care System for persons with dementia (NSTC, 2018-2021)
- Experiences of persons with dementia during the illness trajectory—A grounded theory approach from the person's perspective (NSTC, 2017-2020)
- A care model for elderly hip-fractured persons with cognitive impairment and their family caregivers (NHRI, 2015-2018)
- Processes of post-operative recovery and family caregiving for hip fractured older persons with cognitive impairment: A grounded theory study (NSTC, 2014-2017)
- A model of family caregiving and model-based intervention program for family caregivers of patients with mild cognitive impairment (NSTC, 2013-2016)
- Influences of balance on caregivers of patients with dementia: Cutoff for the "finding a balance point" scale and its effect on trajectories of caregivers' health outcomes (CGH, 2013-2014)
- Cardio-vascular complications in hip fractured elderly following surgery (NSTC, 2011-2014)
- A care model for hip-fractured elderly persons with diabetes mellitus (NHRI, 2010-2014)
- Working carers of frail elderly: How to make employment and care responsibilities compatible? (CGH, 2008-2011)
- An investigation of post-hip fracture recovery and related factors in elderly persons with diabetes mellitus (NSTC, 2009-2012)
- Three care models for elderly patients with hip fracture (NHRI, 2005-2009)
- Expansion of family care transition model of 'role tuning' on families of children with autism (II / III) (NSTC, 2005-2007)
- Expansion of family care transition model of 'role tuning' on families of children with autism (I) (NSTC, 2004-2005)
- Family care for persons with Alzheimer's disease in Taiwan and the US: Development and testing of a cross-national family care inventory (NSTC, 2004-2009)

- The influences of environmental quality on medical resources utilization of the elderly within the community (CGH, 2004-2005)
- A preparation study for remote monitoring of well-being and medical resources utilization of the elderly within the community (CGH, 2004-2005)
- Theory development for explaining processes of family caregiving to elders with dementia (NSTC, 2002-2004)
- Intervention program for elderly patients with hip fracture (NHRI, 2001-2003)
- A nurse-directed discharge planning program for hospitalized elders and their family caregivers (NSTC, 2000-2003)
